# Polynomial Vocabulary

## Across

1. A monomial or a sum of monomials  
 3. Polynomial with a degree of three  
 5. The sum of the exponents of the variables  
 8. Polynomial with a degree of zero  
 10. The number in front of the variable(s)

12. Polynomial with a degree of two

13. A polynomial with two terms

## Down

2. Polynomial with a degree of one

4. Polynomials written in the order of highest degree to lowest degree

6. Term with the highest degree

7. A polynomial with one term

9. A polynomial with three terms

11. Product or quotient of number(s) and/or variable(s)
