

# Pre-AP Biology

**Across**

- 1. Cells look different and perform different functions
- 6. A reaction to a thing or event
- 7. DNA from two different parents
- 9. Chemical reactions in the body

- 10. Carrier of genetic information
  - 11. Getting larger
  - 12. The study of life
- Down**
- 2. Species changing over time
  - 3. Changing shape and structure

- 4. Maintaining constant internal conditions
- 5. A thing or event that causes a reaction in a organ or tissue (a signal)
- 8. DNA from a single parent (cloning, budding)
