

# Principles of design

## Across

5. This creates movement
6. The repetition of a design
7. The satisfying connection between one area and another
9. The area which isn't used between lines and shapes
10. It is used to catch your eye at a specific point

## Down

1. If it's not a shade it's a...
2. This type of line makes things seem to look wider
3. Gives an illusion of height
4. Another word for how something feels.
8. It is 2 dimensional
