

# Prints

## Across

1. impressions left by friction ridge skin on a surface  
 3. a place where two ridges appear to cross  
 7. similar to the plain arch, but has a spike in the center  
 12. loops that open toward the pinky or the ulna bone on the right hand  
 16. general database that store fingerprint information  
 17. whorls that are made up of any two loops combined into one print  
 18. the study of the uniqueness of friction ridge structures and their use for personal identification  
 20. used to help investigators find latent prints on multicolored or dark surfaces  
 23. the ending of a line  
 24. the center of a fingerprint  
 28. a connecting ridge between parallel running ridges

29. have at least one ridge that makes a complete circuit  
 31. oldest method of fingerprinting  
 33. also called the super glue method  
 34. a splitting line  
 35. prints that may be left in mud or clay  
**Down**  
 2. an isolated ridge whose length is the same as its width  
 4. developed 1st classification system for fingerprints, modified system still used today  
 5. a short, splitting line  
 6. the most common type of animal hair that is used to make brushes  
 8. classified lip prints  
 9. evaluate the presence of forgeries  
 10. this type of powder works better on shiny surfaces or plastic baggies and containers  
 11. a single ridge that bifurcates and rejoins after a short while and continues as a single ridge

13. an individual characteristic; no two people have been found with the exact same one  
 14. must have one delta and one or more ridges that enter and leave on the same side  
 15. are the simplest type of fingerprints that are formed by ridges that enter on one side of the print and exit on the other  
 19. where a line curves within a fingerprint  
 21. a triangular pattern that appears in a fingerprint  
 22. a chemical that bonds with amino acids in fingerprints and will produce a blue or purple color  
 25. occurs when the bottom of a line forms and resembles an eye  
 26. loops that open toward the thumb  
 27. published first textbook on fingerprints  
 30. father of lip prints  
 32. reflected ultraviolet imaging system
