# Proportions, Percent & Numerical Rep Vocab #3

**Across**

- 9. fractions that have the same value
- 10. a set of which all the elements are also contained in another larger set
- 13. a comparison between two different quantities
- 14. a comparison of two measurements with a denominator of 1
- 15. the distance a number is away from zero
- 17. the point (0,0); where the x and y axes intersect

- 18. price of 1 unit
  - 19. a number that can be written as a fraction, as a terminating decimal or as a repeating decimal
  - 20. a positive counting number starting with zero
- Down**
- 1. quantity out of 100
  - 2. two integers can be opposites if they are equal distance away from zero on both sides of the number line
  - 3. the plane containing the x- and y-axes

- 4. a comparison between two quantities with different units of measure
- 5. a part out of a whole
- 6. the ratio of two corresponding sides in a set of similar figures
- 7. quantity out of 100
- 8. four regions on the coordinate plane
- 11. a positive or negative whole number
- 12. two equal ratios
- 16. a graphic organizer used when setting up proportions
