

Name: _____ Date: _____ Period: _____

Quadratics Crossword Puzzle Project

Across

2. $x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$
 3. no answers of a quadratic equation
 7. a curved line in a shape of an U that can either be upwards or downwards
 10. a number that is a value when multiplied by itself, it then gives the number
 11. any number of the form $a + bi$, where a and b are real numbers and $b \neq 0$
 12. an expression that can be used to determine square roots
 13. the "solutions" of an equation
 15. A polynomial equation in a single variable
 16. a number or symbol multiplied with a variable

17. the peak in a parabola, can either be upquards or downwards
 19. an expression that includes three terms which are monomials. they are seperated by plus or minus signs
 21. synonym of solution
 22. $y = ax^2 + bx + c$
 23. the lowest points in a particular section of a graph
 24. $b^2 - 4ac$
 25. a combination of an imaginary and real number in the form of $a + bi$

Down

1. where the graph crosses the x-axis
 4. one of the form $y = ax^2 + bx + c$, where a, b, c are numbers that are not equal to zero
 5. two answers of a quadratic equation

6. a method used to solve quadratic equations
 8. one answer of a quadratic equation
 9. a line that divides an object in half
 14. a number on its own, or a letter used to stand for a fixed number
 18. $y = a(x-h)^2 + k$
 20. the highest points in a particular section of a graph
