

# Quadrilaterals

## Across

3. A Kite has how many pairs of equal angles?
5. I have four equal angles and 4 lines of symmetry.
6. I have 4 equal sides but my angles are not all equal.
8. I have one pair of equal sides and one pair of parallel sides.
10. A parallelogram has how many lines of symmetry?

## Down

1. I have no lines of symmetry but two pairs of equal sides
2. What is the size of each angle in a rectangle? (Two words)
4. A Rhombus has \_\_\_\_ lines of symmetry.
7. How many quadrilaterals are there?
9. A rhombus has how many lines of symmetry?
