

# Reflective Portfolio - Creative Piece

## Across

4. What did I develop during my WPE?
5. What position is best to achieve maximum oxygenation?
7. What is my upmost value?
9. What specific vital sign did I use as an example?
11. What NMBA Standard did I meet?
13. What non-pharmacological intervention did I use?

14. Did my belief about working in palliative care get challenged?

15. What is the main role of palliative care?

## Down

1. What facilitated healthcare practitioners to work holistically?
2. How was my attitude during my WPE in palliative care?
3. What did my patients like me to do at night?

6. What element of my learning prepared me the most to participate in my WPE?

8. How did the patient and I feel when SpO2 raised above 95%?

10. What should I encourage the patient to do to increase SpO2?

12. What facilitated shared decision-making?
