

Name: _____ Date: _____

Renewable Energy by Sydney Harbert

Across

1. uses temperature difference to generate electricity
4. Plant material, manure, and any other organic matter that is used as an energy source
6. energy produced from moving water
7. energy from the sun that can be gathered by collectors and used to heat water or heat a building
9. Energy from a source that is replenished quickly enough that it will not be used faster than it can be produced

Word Bank

active solar heating
biomass fuel
fuel cell
renewable energy

energy conservation
ocean thermal energy conversion
hydroelectric energy
passive solar heating

Down

10. saving energy
11. uses the sun's energy to heat something directly
2. percentage of energy put into a system that does useful work
3. describes energy sources that are still in development
5. energy generated from heat within Earth
8. produces electricity chemically
