

Name: _____ Date: _____

Research Mod 1 Week 3

- | | |
|--|------------------------------|
| 1. enigmatic or troubling condition within a topic of interest | A. null hypothesis |
| 2. statement of the specific query the researcher wants to answer to address a research problem | B. research problem |
| 3. prediction of outcomes, most often about predicted relationships between variables | C. directional hypothesis |
| 4. specific accomplishments the researcher hopes to achieve by conducting the research study | D. deductive hypothesis |
| 5. summarizes study goals | E. nondirectional hypothesis |
| 6. capable of being completed | F. problem feasibility |
| 7. affects the strength or direction of a relationship between the independent and dependent variables | G. mediating variable |
| 8. acts like a "go between" in a causal chain linking 2 variables | H. research aim/objective |
| 9. before | I. inductive hypothesis |
| 10. inferred from observations | J. research question |
| 11. begin with observations and move toward generalizations | K. hypothesis |
| 12. specifies existence and expected direction of the relationship between variables | L. moderator variable |
| 13. no statement of the direction between variables | M. statement of purpose |
| 14. no relationship between the independent and dependent variable | N. a priori |
