

Respiration and Photosynthesis Revision

Across

5. Respiration is the controlled release of _____ from food

9. Part of the cell where respiration takes place

11. The process in plants which makes food

12. What type of process is photosynthesis?

Down

1. The type of energy which is needed for photosynthesis

2. What type of process is respiration?

3. A reactant in respiration

4. Part of the cell where photosynthesis takes place

6. In photosynthesis light energy is converted to _____ energy?

7. Respiration takes place in the day/night/both

8. Photosynthesis occurs during the day/night/both?

10. The type of food that is made in plants
