

# Rock Cycle

## Across

- 1. Plates under the Earth's crust
- 4. Formed through heat and pressure
- 6. A mountain with lava/magma inside
- 7. Sedimentary rock starting with S

- 8. Lava but deeper in the Earth's surface
- 11. A Sedimentary Rock beginning with C
- 12. Igneous rock starting with D

## Down

- 2. A type of igneous rock starting with g

- 3. Formed by compaction and sedimentation
- 5. Made through cooling and solidification of magma or lava
- 9. A metamorphic rock starting with S
- 10. Metamorphic rock starting with G
