Date: \_\_\_\_\_

# S3 Electricity Crossword

## Across

3. A component which converts electrical to light energy

5. Current does this in a parallel circuit

6. Unit for voltage

9. A component which reduces current in a circuit

11. More than one of these joined makes a battery

14. A circuit with junctions

15. The unit of resistance

16. Unit for current

## Down

1. This measures current

2. Voltage does this in a series circuit

4. This will happen to current if voltage is doubled

7. A measure of the energy given to charges

8. Circuit with same current all round

10. Graph of voltage against current is a \_\_\_\_\_ line

12. A part of a parallel circuit

13. A flow of electrons
