

Name: \_\_\_\_\_

# Science-8th Katie Garner

## **Across**

2. what is frozen water on earth?  
3. the brittle rocky layer of the earth  
7. what is the least dense layer of the earth  
9. what is the solid core  
10. what is the most dense layer of the earth  
14. all living things on earth are?  
15. earths geosphere is divided into \_\_\_\_\_ major systems

16. the amount of mass in a material per unit.  
17. plastic layer within the earth  
18. earths gravity \_\_\_\_\_ objects toward the center of the earth  
19. liquid core  
20. what is the earths entire body?  
21. the thick solid layer of the earth  
**Down**  
1. a shaped like ball, with all points on the surface at an equal distance from the center.

4. what is the liquid water on earth?  
5. least dense layer of the earth  
6. what are the layer of gases surrounding the earth?  
8. the force that every object exerts on all other objects because of their masses  
11. the outer part of the magnetic field  
12. most dense crust  
13. the crust and the uppermost mantle
