

Name: _____

Date: _____

Science

Across

7. Molecules are closely packed

8. A mixture where the components that make up the mixture are uniformly distributed throughout the mixture

10. Matter that is composed of some discrete particles like atoms

12. A sample of matter with both definite and constant composition with distinct chemical properties

13. scientific discipline involved with elements and compounds composed of atoms

Down

1. A heterogeneous mixture of particles or masses

2. Two or more substances are mixed together but are not chemically combined

3. Mixture of two or more substances

4. the quantity of A three-dimensional space occupied by a liquid, solid, or gas.

5. A combination of different things

6. Molecules are spread out

9. The chemistry of things of everyday life

11. A sample of matter that conforms to the shape of a container
