Date: \_\_\_\_\_

# Science

## Across

- 6. the basic unit of a chemical element
- 7. The amount of space something takes up.
- 8. This family has a element with 54 electrons.
- 9. Everything around you
- 10. Uniformly distributed
- 11. Solid to \_\_\_\_\_ to a gas
- 12. They are located on the outer shell of an atom.

- 14. From side to side on the periodic table

- 15. Two or more elements bonded together
- 16. Distinguishes metals and non-metals
- 18. Dmitri Mendeleev organized it
- 19. Chlorine is a very \_\_\_\_\_ element.
- 20. A property that is measurable

## Down

- 1. Visible different substances.
- 2. Information about the proportions of an atom
- 3. This family has a elements with 12 neutrons.
- 4. Made the Periodic Law
- 5. Group 3-12
- 13. The letters on the elements.
- 17. The compactness of something
