

Science

Across

- 2. When a solid turns into a gas
- 4. The collection of all of the elements
- 9. Individual elements in a chemical equation
- 10. When a liquid turns into a gas
- 12. Particles are still connected but move actively

14. Hotter than gas

Down

- 1. When a gas turns into a liquid
- 3. Negative charge within a atom
- 5. Positive charge in a atom
- 6. A substance that is not pure

7. Things within a substance that move more when heated

- 8. The object when particles barely move within the substance
- 11. Everything is made of this stuff
- 13. There are no bonds between the particles within the substance
