

Science 7 Unit I Final

Across

- 1. This tool or type of cylinder measures volume
- 4. Data you measure
- 6. The base or standard unit of mass
- 7. length measures _____
- 12. Use a graduated cylinder to calculate the volume of _____ objects
- 13. A measurement showing distance
- 16. The results
- 17. $l \times w \times h$ is the _____ for volume

- 18. The base or standard unit of length
- 19. The base or standard unit of volume
- 21. Volume is the amount of _____ an object takes up

Down

- 2. Information collected and recorded
- 3. A factor that can change
- 5. Factor that I can control
- 8. Tool or type of ruler used to measure length

- 9. The _____ beam balance is the tool used to measure mass
- 10. Mass is the amount of _____ in an object
- 11. Use a metric ruler to calculate the volume of _____ objects
- 14. Measures liquids
- 15. Data you observe
- 20. The basic or standard unit of volume
