

Name: _____

Date: _____

Science Anchor Activity 1

Across

2. metric prefix that means 10
 6. Used as a standard of comparison
 8. Using prior knowledge to make a logical interpretation of observations
 9. metric prefix that means 100
 10. SI unit of length or distance
 12. SI unit of mass
 13. metric prefix that equals 0.1
 16. Factors in an experiment that are kept the same

Down

1. Observation that includes numbers
 3. Amount of SPACE an object takes up
 4. Variable plotted on the x-axis
 5. Part of a controlled experiment that the independent variable is applied
 7. Factor in an experiment that is effected by the Independent variable
 11. metric prefix that equals 0.01
 14. Made using one or more of the five senses
 15. Amount of MATTER in an object
 18. standard unit of measurment used by scientists
 20. amount of matter in an object that is dependent on the force of gravity
