

Science PA

Across

- 2. Very large stars in the second stage of their life cycle.
- 6. All of space and time and all of its contents.
- 9. A spherical galaxy.
- 10. Our sun is in this stage of its life.
- 13. A galaxy without a distinct shape.
- 14. Smallest and Densest stars in the Galaxy.

- 16. The first stage of a star's life cycle.
- 17. The stage after Red Giant in a stars life cycle.

Down

- 1. A galaxy in the shape of a spiral.
- 3. Small Hot stars that aren't very bright.
- 4. Giant cloud of dust and gas in space.
- 5. The second largest category of stars.

- 7. Shows a stars Luminosity and Temperature
- 8. A system of millions of Stars.
- 11. The largest class of stars.
- 12. A vortex in space with enough gravity that even light can't escape it.
- 15. A massive explosion in space that is caused by a SuperGiant stars death.
