# Science Review

## Across

4. change from a liquid to a gas  
 7. organ system made of the heart and vessels that move blood through the body  
 11. average weather over a long period of time  
 13. organ system that breaks down food, so it can be used by the body  
 15. a weather tool that measures wind speed  
 16. any living thing

17. change in which a NEW type of matter is made

18. change from a gas to a liquid

## Down

1. boundary between air masses where cold air pushes warm air  
 2. a high, wispy cloud made of ice crystals  
 3. a puffy, mid-level cloud  
 5. organ system made of muscles that move the body  
 6. the basic unit of all living things

8. a weather tool that measures air pressure

9. Pacific Ocean gets hotter than normal and effects weather globally

10. narrow bands of strong wind that blow from west to east in the upper levels of the atmosphere

12. measurement that compares an object's mass and volume

14. a weather tool that measures precipitation
