

Name: _____ Date: _____

Science Think-Tac-Toe

Across

2. when a male a female sex-cell join together
3. genetic make-up
9. the passing of physical characteristics from parents to offspring
10. the off \spring of many generations that have the same form of a trait

11. the scientific study of heredity
12. a specific charecteristic
14. the different forms of a gene
15. this allele is hidden whenever the dominate allele is present

Down

1. has two different alleles
4. two identical traits

5. physical appearance
6. a number that describes how likely an event is to occur
7. the allele that always show up in an organism if this allele is present
8. a chart that shows all the possible ways alleles can combine
13. describes the factors that control a trait
