# Science Vocab

## **Across**

- 1. Energy waves from the sun travel to Earth as
- 7. Winds that blow steadily from a specific direction over a long distance
- 8. The inner, or lowest layer of the Earth's atmosphere
- 9. (the middle layer) The layer of the Earth's atmosphere above the stratosphere

- 10. The layer near the top of the atmosphere, has two layers

- 11. Dust sized particles and gasses in the atmosphere disperse light

- 12. A form of electromagnetic waves

- 13. An invisible form of energy with wavelengths that are shorter than wavelengths for violet light

## **Down**

- 2. Winds that blow over short distances

- 3. The increased cooling that a wind can cause

- 4. The layer of the Earth's atmosphere that extends from the top of the troposphere

- 5. The movement of air parallel to Earth's surface

- 6. The outer layer of the Thermosphere
