

Name: _____

Date: _____

Science Vocabulary

Across

5. Supercontinent

9. Deep under water canyons

10. Plates come together

11. Trace of an ancient organism preserved in rock

12. Breaks in earths crust where rocks have slipped past each other

13. A process where oceanic crust sinks down beneath the trench into the mantle

Down

1. Where pieces of Earths crust diverge on land, a deep valley

2. Plates move apart

3. Idea that the continents slowly moved over Earths Surface

4. Earths plates are in a slow constant motion

6. Under water mountain ranges

7. Plates slip past each other

8. Adding new material to the ocean floor

Word Bank

Divergent boundary

Faults

Pangaea

Fossil

Plate tectonics

Sea floor spreading

Subduction

Deep ocean trenches

continental drift

Transform boundary

Rift valley

Mid ocean ridges

Convergent boundary
