

Science

Across

- 3.** Violent shaking of the ground
9. Guy who posed continental drift theory
12. Guy who posed the theory of seafloor spreading
13. Preserved remains
14. Part of Earth consisting of crust and upper mantle
15. Plates collide
16. Super-continent

- 17.** Gradual movement of continents over time

Down

- 1.** Theory that hot, less dense material below Earth's crust rises toward the surface of mid-ocean ridges
2. Region of Earth where tectonics meet
4. A large narrow valley lying between 2 raised pieces of land

- 5.** A large, steeper hill
6. Plates pull apart
7. Area near electric currents
8. sliding of plates in opposite directions of same direction at different rates
10. Earth's crust and part of the upper mantle are broken into sections
11. Layer beneath the lithosphere
