

# Science

## Across

3. a person who is trained to travel in a space craft  
 4. to collect information  
 10. an eclipse in which the sun is observed by the moon  
 11. the 6th planet in the solar system circled by rings  
 12. typically has 5 points on the end

13. being able to see in outer space  
 15. a small body of matter from outer space that enters the earths atmospheres

## Down

1. a small, rapidly moving meteor burning up on entering earths atmosphere  
 2. hypocycloid

5. ice and dust  
 6. a system with millions and billions of stars  
 7. an eclipse in which the moon appears darkened as it passes into the earths shadow  
 8. 8 planets and their moon orbit  
 9. A large planet with relatively low density  
 14. the star that orbits the center
