

Name: _____ Date: _____ Period: _____

Science cell structure

Across

- 2. Occurs only in the Plant cell and absorbs light
- 4. Stores DNA and creates ribosomes
- 6. Defends the cell from virus' and acts as a digestive system
- 7. Acts as the powerhouse of the cell
- 10. This type of cell has its DNA spread throughout the cell

- 11. This type of cell that has DNA stored in the nucleus
- 12. Clear liquid gel the fills up space
- 13. Organized and specialized structures in a cell
- 14. Gives structure and decides what comes in and out of the cell

Down

- 1. Takes ribosomes from the nucleus

- 3. Deals with proteins
- 5. Helps create proteins
- 8. The most basic unit of life
- 9. Protects the cell, gives structure, is only in the Plant cell
