

# Scientific Method

## Across

3. something we ask or wonder  
 5. what we discover at the end of an experiment  
 7. what we think will happen during an experiment  
 10. what our ears can do

11. we write if our hypothesis succeeded or not in the \_\_\_\_\_

## Down

1. what our nose can do  
 2. what our skin can do  
 4. we need to \_\_\_\_\_ the results of our experiment

6. set steps we follow to properly test ideas  
 8. something we do to test our hypothesis  
 9. before we do an experiment we do \_\_\_\_\_

12. what we do when we use our senses  
 13. what our eyes can do
