

# Sexual Health

## Across

2. Something that prevents pregnancy.
3. When someone is carrying a developing fetus in their uterus. It begins with the implantation of the pre-embryo and progresses through the embryonic and fetal stages until birth, unless it's ended by miscarriage or abortion. It lasts about 40 weeks from implantation to birth.
8. A powerful, positive feeling towards another.
9. The socially and legally recognized union of a couple as spouses.
10. Unwanted sexual advances from someone. Includes suggestive gestures, language, or touching.

## Down

1. A general term used to describe someone whose gender expression/gender identity are different than the sex they were assigned at birth.
4. A medical test that creates an image of internal organs by bouncing sound waves off the internal organs. Frequently used to find or monitor a pregnancy, but has a variety of medical uses.
5. Thin, stretchy pouches worn on the penis during sex. Mostly made from latex or plastics (like polyurethane and polyisoprene). Sometimes made from lambskin.
6. Ending a pregnancy.
7. Attitudes and feelings that a person has about their body and appearance.
