# Social Stratification

## Across

6. A family's or individual's net worth.  
 9. A politically based system of stratification characterized by limited social mobility.  
 10. A society where status and mobility are based on individual attributes, ability, and achievement.  
 11. The economic elite.  
 12. The capitalist class.

13. Individuals with nonmanual jobs that pay significantly more than the poverty line.

14. The idea that everyone should have an equal starting point.

## Down

1. A system of stratification based on social prestige.  
 2. The idea that each player must end up with the same amount regardless of the fairness of the "game".

3. The incentive is for each individual to shirk responsibility and hope others will pull the extra weight.

4. Mobility that is inevitable from changes in the economy.

5. A two-directional relationship.

7. A religion-based system of stratification characterized by no social mobility.

8. The working class.

15. Money received by a person for work, from transfers, or from returns on investments.
