# Social Studies Ch.13

## Across

2. growth whose rate becomes ever more rapid in proportion to the growing total number or size.

6. a sovereign state that has a highly developed economy and advanced technological infrastructure relative to other less industrialized nations.

8. the study of statistics such as births, deaths, income, or the incidence of disease, which illustrate the changing structure of human populations.

9. The difference between the number of live births and the number of deaths during the year.

10. the act of leaving a resident country or place of residence with the intent to settle elsewhere

11. a measurement of population per unit area or unit volume

13. a term used by geographers to mean inhabited land

14. an official count or survey of a population, typically recording various details of individuals

15. The number of emigrants departing an area of origin per 1,000 population in that area of origin in a given year

16. a graphical illustration that shows the distribution of various age groups in a population

## Down

1. an age-population ratio of those typically not in the labor force (the dependent part ages 0 to 14 and 65+) and those typically in the labor force (the productive part ages 15 to 64). It is used to measure the pressure on productive population.

3. a poor agricultural country that is seeking to become more advanced economically and socially.

4. the difference between the number of immigrants (people coming into an area) and the number of emigrants (people leaving an area) throughout the year.

5. the pattern of where people live.

7. the average period that a person may expect to live.

12. the period of time required for a quantity to double in size or value.
