

# Solids, Liquids and Gases

## Across

3. Solids, liquids and gases are called the 3 states of what?
4. What stays the same even when a liquid changes?
7. Somthing that gas helps move around
9. What do we breathe out?

10. If you squeeze a sponge under water, what are the bubbles that escape?

## Down

1. What does the sun let off?
2. What is often invisible?
5. What do we breathe in?
6. What can mould?
8. What always keeps their shape?
