

Name: _____

Solubility By: Ania Polk

Across

2. A solution that contains less solute than a saturated solution
3. A heterogenous mixture of fluid and solid particles
6. The dissolving medium in a solution
7. A homogenous mixture of two or more substances in a single phase
9. A solution that contains the maximum amount of a dissolved solute
10. Liquids that are insoluble to one another
11. Moles of a solute in one liter of a solution

11. Moles of a solute in one liter of a solution

Down

1. A solution that contains more dissolved solute than a saturated solution
4. Incapable of dissolving in a solvent
5. The dissolved particles in a solution
8. When two or more liquids can dissolve one another in all proportions
