

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Solution

## Across

2. homogeneous mixture composed of two or more substances

6. Water is natural \_\_\_\_\_

8. A solution reached the maximum solubility is called \_\_\_\_\_ solution

10. The amount of positive and negative charges a molecule has it's \_\_\_\_\_

12. solutions with uniform composition

14. Components of solution present in smaller amount

## Down

1. Components of solution present in greater quantity

3. The amount of dissolved solute per volume of solvent in a solution is it's \_\_\_\_\_

4. Non polar dissolves \_\_\_\_\_

5. The maximum amount of a substance dissolved in a given volume of solvent is called \_\_\_\_\_

7. Like \_\_\_\_\_ like

9. composed of two or more substance

11. Types of solution

13. Polar dissolves \_\_\_\_\_
