

Space contract #3

Across

2. The first planet from the sun
6. A person who studies space
7. The natural satellite of earth
9. The force that drives an object of a smaller mass to an object of a higher mass
11. The curved path of a celestial object around an object of a higher mass
15. The galaxy we live in
16. An object used to zoom in on distant objects to make them seem closer
19. The biggest planet in our solar system

20. One of the possible 5th stages of a large star
21. The furthest planet from the sun
22. The closest star to earth besides the sun
23. The asteroid belt is in between _____ and Jupiter
25. The third stage of sm/med stars

Down

1. The first stage of every star
3. A certain pattern of stars
4. The study of space and the universe
5. The envelope of gasses surrounding a planet

8. The spaceship that landed Neil Armstrong on the moon
10. a cloud of gas and dust in outer space
12. A large bowl shaped indent on the surface of a planet or moon
13. The planet most known for its many rings
14. The system in which planets orbit around the sun
17. A place in space smaller than a pea that's gravity is so intense nothing can escape
18. A person who is trained to travel in a space craft
24. The star that earth orbits
