

# Steam Cell Cross Word Puzzle

## **Across**

**2.** Protects all organelles, In both Animal And Plant Cell

**3.** Makes energy from glucose, In Both Plant And Animal Cell

**9.** Holds Water Nutrients and Waste, In Only Animal Cell

**10.** Moves Protien To Their Destination, In Both Animal And Plant Cells

**11.** Area of protein production, In Both animal And Plant Cell

**13.** Area Of Lipid Production, In Both Animal And Plant Cell

**14.** Breaks Materials down so the Cell Can Reuse Them, Only In Animal Cell

**15.** Holds Water Nutrients and Waste, Only In Plant Cell

## **Down**

**1.** Controls Actions Of Materials in and outside if the cell, In Both Animal And Plant Cell

**4.** Protects The Cell, Only in A Plant Cell

**5.** Helps Organelles Move Through Cell, In Both Animal And plant Cells

**6.** Moves Protien To Golgi Body From The ER, In Both Animal And Plant Cell

**7.** Makes Glucose Because Of Photosynthesis, Only In Plant Cell

**8.** Holds DNA, Controls What Cells Do, In Both Animal And Plant Cell

**12.** Makes Protien, In Both Plant And Animal Cells
