

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Stem engineers

## Across

- 2. Deal with movements humans make
- 4. Response for making sure your utilities are available
- 7. Makes sure building are structurally strong
- 11. Makes medicine suitable for animals
- 16. make advances in technology for health
- 18. Make jet engines
- 19. Make food processing machines
- 20. Designs animal habitats

- 21. Manipulate and studies DNA

- 22. Makes sure an item is of good quality

- 24. Oversees water quality and sewage treatment

- 25. Design x-ray machines to view bodies

- 26. Design highways and flow of traffic

## Down

- 1. design and build tunnels and bridges

- 3. Supervise lighting manufacturing

- 5. Make paper making machines

- 6. Design nuclear power plants

- 8. Design phones and now they transmit data and voice to one another

- 9. Designs components for railroads

- 10. Insulate houses and buildings

- 12. Test the stress point of material

- 13. Make tools for doctors

- 14. Design oil mining machines

- 15. make anti lock brakes for cars

- 17. Makes planes and space crafts

- 23. Design electrical wires and electrical poles
