System of Equations

Across

- **5.** Independent System/ has infinitely many
- **6.** has exactly one solution DEPENDENT
- 9. Dependent System/ has exactly one
- **10.** Linear Inequality/ equal sign is replaced with a inequality
- 11. System of Linear Equations/ is a set of two or more linear equations containing two or more
- **12.** a system with at least one solution CONSISTENT
- **13.** Inconsistent System/ a system that has no
- **14.** equal sign is replaced with a inequality symbol LINEAR

15. with two or more variables is an ordered pairs that satisfies each equation in the system SYSTEM OF SYSTEM OF LINEAR

<u>Down</u>

1. is a set of two or more linear equations containing two or more variables Solution of System of linear equations/ with two or more variables is an ordered pairs that satisfies each equation in the system Consistent System/ a system with at least one solution Inconsistent System/ a system that has no solution Dependent System/ has exactly one solution Independent System/ has infinitely many solution Linear Inequality/ equal sign is replaced with a inequality symbol

- 2. Solution of System of linear equations/ with two or more variables is an ordered pairs that satisfies each equation in the
- 3. is a set of two or more linear equations containing two or more variables
- **4.** a system that has no solution INCONSISTENT
- **7.** has infinitely many solution INDEPENDENT
- **8.** Consistent System/ a system with at least one
