# System of Equations and Inequalities

## Across

3. Where the line crosses the x-axis

6. <

8. =

9. The rate of the equation

10. An example can be 'x' or 'y'

11. The line when there is only one x-value

12. The most shaded region and/or the intersection of the line

## Down

1.  $\geq$

2.  $\leq$

4. Where the line crosses the y-axis

5. >

7. The line when there is only one y-value
