

Tectonic Plate Project

Across

- 3. supercontinent
- 4. the process of wearing away
- 6. innermost layer of the earth
- 10. separate
- 11. what magma is called when it reaches earth's surface
- 13. crust and upper mantle make up the what?
- 14. thinnest layer of earth

- 15. result of moving tectonic plates
- 16. sliding plates
- 17. when plates shift over each other and create a tremor
- 18. where are the oldest rocks on earth found?
- 19. scientist who proposed the continental drift theory
- 20. come together/collide

Down

- 1. sea floor spreading

- 2. the plates under the ocean are?
- 5. thickest layer of the earth
- 7. "plastic mantle"
- 8. where are the youngest rocks on earth found?
- 9. when ocean plates slide under other plates
- 12. molten rock when it is underground
