# Tectonic Plates

## Across

2. The physics of the earth  
5. Large land mass  
6. Sideways and downwards movement of a plate  
14. A mountain that has lava  
15. Different directions  
16. Being useful

18. a large block of the earth's crust  
20. the upper layer of the crust's mantle

## Down

1. belonging to a continent  
3. The outer layer of the earth  
4. An Idea  
7. The process of deforming

8. something that causes irreparable damage  
9. the crust and upper mantle  
10. The form of things  
11. Coming closer together  
12. between the crust and core  
13. Violent shaking of the ground  
17. non active lava  
19. The transfer of heat
