

Testing Terminology

Across

- 2.** assessment during instruction-time for teachers to monitor, guide, and reteach as needed
- 6.** extent to which a test produces a consistent, reproducible score
- 7.** average of scores
- 8.** most frequently occurring score
- 9.** extent to which a test measures what it is intended to measure

- 10.** a type of test, assessment, or evaluation which yields an estimate of the position of the tested individual in a predefined population, with respect to the trait being measured (example: ACT, PAWS)

Down

- 1.** May be used to determine how much students know before instruction begins and after it has finished (pre and post tests)
- 3.** time to judge the success at the end-more formal
- 4.** example of this assessment could be a discussion, journal, blog, or portfolio
- 5.** middle score of a group of numbers
