

The Canadian Justice System

Across

3. Laws that have been created by a process where the House of Commons, the Senate, and the Monarch work together.
7. When you are brought back as a part of something, like a society.
9. A permanent recording of a persons history with the law like crimes. It can cost you jobs, or even being able to enter specific countries.
10. When you apply laws or rules onto something like an issue.
11. This is how a society uses procedures to apply laws that control crimes and give punishment.

Down

1. When something is governed by rules that take people's needs and situations into thought.
2. A type of punishment where you have to help others. For example, you may have to clean up an area, or help alcoholics.
4. To enforce positive behavior on someone.
5. A punishment for a crime, which is determined by the Judicial Branch.
6. Somethings dependability which is based on critical judgement of a source and facts. A witness could be a very good source if they have the right evidence.
8. To establish areas of control in another country, usually to modernize laws, health, religion or economics.
