

# The Digestive System

**Across**

- 3. Receives food from the esophagus
- 5. Produces the hormone insulin
- 7. This structure really has no function
- 8. Stores bile produced by the liver
- 9. The final section of the large intestine

- 10. Where 90% of digestion of food occurs

**Down**

- 1. Filters blood coming from the digestive tract
- 2. Absorbs water from the remaining indigestible food matter
- 4. Connects the throat to the stomach
- 6. Helps fight certain kinds of bacteria
