

The Respiratory System

Across

- 7. Collect air from you nose and passes it to your trachea
- 8. Tiny air sacs in charge of oxygen.
- 10. What brings air from the atmosphere to give oxygen to the bloodstream?
- 11. What is the best entrance for air to get into your body?

Down

- 1. What branches off the trachea?

- 2. What connects the pharynx to the bronchi?
- 3. A flap of tissue that hard the entrance to you trachea.
- 4. A hollow space in the bones of your head.
- 5. A hollow space inside within the nose, lined with tiny hairs and mucus membrane.
- 6. What contains your vocal cords?
- 9. What is another entrance for air to get into your body?
