

The cell cycle and Meiosis

Across

5. In what stages does the cell make final preparations to divide?
6. A males sex cell
7. a females sex cell
9. what does S stand for in the cell cycle?
10. meiosis is important for what?

Down

1. G1, S, and G2 all make up what?
2. What is the the first phase in Interphase
3. meiosis makes how many haploid cells?
4. meiosis only makes what kind of cell?
8. what will most likely happen if your cells keep dividing nonstop?
