

Name: \_\_\_\_\_

# Triglycerides

## Across

- 3.** No double bond between carbon atoms
- 6.** Its a member of the alcohol group
- 9.** Lipids that are liquid at room temperature
- 10.** Three in a triglyceride molecule

- 11.** One glycerol molecule and 3 fatty acids
- 12.** A reaction where water is produced
- 13.** -OH group

## Down

- 1.** The creation of ester bonds

- 2.** More than one double carbon bond
- 4.** -COOH group
- 5.** A reaction that requires water to occur
- 7.** Molecule containing Hydrogen, Carbon, Oxygen
- 8.** One double carbon bond
