

Types of Energy

Across

6. What energy gives off by vibrating objects
8. the form of energy that travels through space as waves
9. What energy travels as electromagnetic waves
10. The total potential and kinetic energy of the particle in an object
11. what rule of energy cannot be created destroy

Down

1. the process of changing one form of energy to another form of energy.
2. potential energy that depends on the height of the object
3. Kinetic or potential energy associated with the motion
4. What form of potential energy that is stored between atoms
5. The potential stored in the nucleus of an atom
7. My password for my phone is
