

Name: _____ Date: _____ Period: _____

~Types of engineers~

Across

- 3. Designs components for railroad tracks**
- 5. Ensures you have all your utilities**
- 7. Designs Wires and poles**
- 10. Deals with human movement**
- 13. Makes jet engines**
- 14. Makes food processing machines**
- 17. Produces hypocarbons**
- 18. Checks the quality of a product**
- 19. This engineer makes planes.**

20. Designs oil machines

- 21. Designs X-rays**
- 23. Creates safe ways to mine minerals**
- 24. Designs animal habitats**
- 25. Malipulates and studies DNA**
- 26. Created phones and computers**

Down

- 1. Makes lock brakes**
- 2. Test the stress point of materials**
- 4. Supervises lighting manufacturing**

6. This engineer designs bridges like tunnels

- 8. Makes Medication suitable for animals**
- 9. Oversees the water quality and sewage treatment**
- 11. Improved web design**
- 12. Makes advances in the medical field**
- 15. Created the nuclear fission reactor**
- 16. Designs highways**
- 22. Insulates houses**
