

Name: _____ Date: _____ Period: _____

Unit 1 Science Vocab

Across

2. The partially molten layer of Earth
 5. The most Common Gas in the Hydrosphere is _____ (ESRT)
 8. We use _____ to find the volume of a irregular shaped object such as a rock
 12. The _____ circles the Earth halfway between the north and south poles
 14. When two variables either both increase or both decrease they have a _____ relationship
 15. Lines running parallel to the equator are lines of _____
 17. There are _____ millimeters in one centimeter
 19. Science Starts with being _____

20. Rate of change is equal to change in value divided by _____
 21. We can use our five senses to make an _____
 22. We measure Mass in _____
 23. The sun setting and rising is an example of a _____ relationship
 24. Variable that is used for comparison in an experiment
 25. A variable that stands on it's own is the _____ Variable
Down
 1. The study of stars
 3. _____ Lines run East and West of the Prime Meridian
 4. The Earth has _____ Time Zones
 6. The density of water is _____ g/cm³

7. The _____ variable always goes on the x-axis on a graph
 9. If a blue spruce grew 10cm in 5 years. What is the rate of change
 10. Scientists that study the forces and processes that create weather
 11. The study of patterns of weather over a long period of time
 13. The most common gas in the troposphere is _____ (ESRT)
 16. This scientist studies organisms that once lived on Earth
 18. Blanket of gas surrounding the Earth
